

# Grow your Specialty Pharmacy with precision engagement!

Simple refills, clinical support, and pharmacy updates are now conveniently packaged to report patient progress, enhance manufacturer support programs, and dramatically improve operational efficiencies.

We send Texts and Emails with important pharmacy updates and perform clinical questionnaires to ensure treatment is progressing as planned. We embed the logic to execute your operational requirements so your team does not have to!

## By The Numbers:

CassianRx integrated the service into the client system to automatically deliver multi-branded & white labelled patient services. Over a 1 year period the Cassian system was deployed to over 1000 patients. The key insights are as follows:

1000 Patients

1 Year

70% Program Engagement

55% Multi-program use

3 Minutes of Average Use

Your pharmacy care team is waiting for you. Complete registration to save time on refills, receive pharmacy updates, and connect with your pharmacist to save time and stay healthy.
